Helen Holt

Helen F. Holt served in the West Virginia House of Delegates, was the first female Secretary of State of West Virginia and led the most important program in housing and long-term healthcare for the elderly in America in the 20th century.

Born in rural Illinois in 1913, Helen Froelich studied at Stephens College and the Marine Biological Laboratory. She received her bachelor’s and master’s degrees in zoology from Northwestern University and was inducted into Sigma Xi. She taught biology at National Park College in Forest Glen, Maryland and Greenbrier College for Women in Lewisburg, West Virginia. In 1941, she married the dynamic and enterprising Mr. Holt, whom she succeeded in the state legislature after his early death.

Following her two years as the Secretary of State of West Virginia, Mrs. Holt served as Assistant Commissioner of Public Institutions and was responsible for the women’s prison and homes for elderly persons. In 1960, President Eisenhower appointed her to create a program to lead the nation away from unsafe, inefficient nursing homes. Through Mrs. Holt’s mortgage insurance program at the Federal Housing Administration, and later the Department of Housing and Urban Development, she established nationally high standards for the care of the elderly and oversaw the construction of 1,000 modern long-term healthcare facilities with more than 100,000 beds, at no cost to the American taxpayer. Her work was so successful, she was reappointed by six subsequent presidents.
Mrs. Holt has served as a local, regional or national officer for a variety of organizations, including the American Association of University Women, Zeta Mu Epsilon, Tri-Delta, Business and Professional Women’s Clubs and Executive Women in Government. She was selected Daughter of the Year by the West Virginia State Society and received the International Year of the Woman Achievement Award. She also received West Virginia Woman of the Decade and was recognized as one of the Fifty Women who have Made a Difference by the International Association of Women.

The late Senator Robert Byrd said in tribute, “West Virginians are proud to claim Helen Holt. She is a very charming woman who wins friends and admirers wherever she goes.”

Commencement Traditions

THE SEAL
West Virginia University’s seal was adopted by the WVU Board of Regents on June 15, 1869. The Regents’ original, handwritten resolution is located in the University Archives at the Wise Library. The Greek motto in the inner circle translates to: “Add to your faith virtue and to virtue knowledge.” The Latin verse in the outer circle translates to: “Seal of the West Virginia University. Established 7 February, 1867.” The hills depicted behind Woodburn Circle reflect the institution’s stability and a rising sun indicates its prosperity.

THE MACE
The mace is a symbolic tradition that originated during the Middle Ages. The ornamental staff of authority is brought to the platform by the University Marshal who, to signify the beginning of the ceremony, taps it thrice and places it in the holder. The mace used in official ceremonies at West Virginia University was handcrafted by a WVU professor. It represents the official authority of the University president and precedes him or her at academic ceremonies, including Commencement and inaugurations. When the president is not in attendance, smaller batons are used to signify the designation of authority.

THE REGALIA
The history of academic regalia worn today dates to the Middle Ages. The oldest universities of northern Europe evolved from ecclesiastical institutions where both faculty and students were regarded as part of the clergy and dressed in clerical garb. The head-covering of the modern academic costume was developed from the skullcap worn by the clergy in cold weather to protect their tonsured heads. In universities, this skullcap acquired a point on top, which gradually evolved into a tassel. The bonnet with tassel is still worn by some; however, it has largely been replaced by the more familiar mortarboard.

The gown worn today seems to have been borrowed from the habit worn by Benedictine monks. No trimming is found on bachelor’s or master’s gowns, but for those holding doctoral degrees, the gown is faced down the front and trimmed on the sleeves with velvet.

Today’s hood is colored according to the scholarly field of the individual and bears the official colors of the institution that conferred the degree. WVU’s ceremonial regalia consists of a blue gown with blue velvet trim, a gold and blue hood, and a blue hat. This regalia is worn by members of the platform party, special guests, and members of the administration.

THE ACADEMIC PROCESSIONAL
The sequence of the processional is as follows: members of the platform party, deans, faculty, degree candidates, honored guests, and the presiding officer, such as the University president or provost.

THE MARSHALS
The tradition of academic marshals comes from storied English universities. The Grand Marshal is the chief protocol officer who coordinates the ceremonial traditions of Commencement, including the processional and recessional. The Grand Marshal is also responsible for the school’s relics, including the mace and batons. University marshals are typically members of the faculty. Schools and colleges may also select their own faculty and student marshals to help facilitate their individual ceremonies.

Irvin Scott

Irvin Scott, Deputy Director for the Bill and Melinda Gates Foundation’s US Programs Education initiative, leads grant making for Empowering Effective Teachers, as well as Teacher Voice / Professionalism, in the College Ready strategy of its education division within its United States Program. Irvin focuses on the foundation’s work in Intensive Partnership Sites and Accelerated Partnership Sites, a cluster of communities with significant investments focused on transforming how teachers are recruited, developed, retained and rewarded. He also leads a portfolio of work focused on supporting teachers and ensuring their voices inform the education reform dialogue.

Prior to joining the foundation, Irvin was appointed as Chief Academic Officer for Boston Public Schools, where he was responsible for the academic programming of the school systems as well as all regional superintendents and schools in the district. Irvin previously served as high school academic superintendent for the district. Irvin also co-chaired Harvard University’s Urban School Leaders’ Summer Institute.

In 2006, Irvin was selected into the Urban Superintendents Program at Harvard University. After completing a year of intense coursework, Irvin interned with Dr. John Deasy, Superintendent of the Prince George’s County Public Schools in Maryland from 2007-2008. During that time, he led a team to plan and implement the district’s new Leadership Development Office for 225 principals. Previously, Irvin served as both an English teacher and principal of J.P. McCaskey and McCaskey East High Schools in Lancaster, Pennsylvania. As principal, Irvin led a team of teachers and administrators to reform the 3,200 student high school into eight small learning communities, as well as to develop core curricula for all students. He also directed Project Forward Leap, a non-profit, academic enrichment program for urban middle school scholars in Philadelphia, Harrisburg and Lancaster Pennsylvania.

Irvin holds a bachelor’s degree from Millersville University, a master’s degree in education from Temple University and a master’s and doctoral degree from Harvard University.

Irvin is married to Kisha Scott, a middle and high school math teacher. They are the proud parents of Irvin, a junior at the College of the Holy Cross, Leon, a freshman at Morgan State University and Nicholas, a junior at Fairfax High School.

Edward “Jed” DiPaolo

Edward “Jed” DiPaolo received his undergraduate degree in agricultural engineering from West Virginia University in 1976. He began his nearly three decades with the Halliburton Company as a summer intern in Weston, West Virginia. Immediately following graduation, he began working offshore in the Gulf of Mexico. Opportunities in the oil and gas industry allowed Mr. DiPaolo to work worldwide in various technical and management roles, leading to his position as group senior vice president of global business development at Halliburton Company. He retired in 2002, at the age of 49, as one member of a three-man leadership team that managed an $8 billion business with 100,000 employees located in 106 countries.

Mr. DiPaolo is a partner in and president of JNDI Corporation, an oil and gas consulting company he formed in 2002. He brings more than 36 years of experience in the energy industry to clients worldwide. He also serves as a senior advisor with Duff & Phelps Corporation, a publicly traded financial advisory and investment banking firm. He was an energy partner at Growth Capital Partners, L.P., in Houston, Texas, for eight years prior to its purchase by Duff and Phelps Corporation.

Additionally, he continues to provide operational advice to public and private companies domestically and internationally. Mr. DiPaolo currently serves on the board of directors of three publicly traded companies: Evolution Petroleum Corporation, Edgen Group Inc., and Willbros Group Inc. He previously served as interim chairman of the board of directors of Boots and Coots Group prior to its purchase by the Halliburton Company. He also served on the Superior Well Services board before its purchase by Nabors Industries and on the board of Innico Subsurface Technologies, a Canadian publicly traded company, prior to its sale to BJ Services. He currently sits on several private company boards as well.

Mr. DiPaolo came to WVU from the greater Philadelphia area. He was a gymnast, a cheerleader, and a candidate for Mr. Mountaineer. He was vice president of Sigma Chi fraternity, president of the American Society of Agricultural Engineering Student Chapter, and a member of Alpha Epsilon. He currently serves on the advisory board of WVU’s Statler College of Engineering and Mineral Resources.

Mr. DiPaolo has been married for 36 years to Nancy McCormick from Logan, West Virginia. Nancy is a WVU College of Business and Economics graduate. The couple currently resides in Houston, Texas. They have two daughters.

Brigadier General (Retired) Robert G. “Bob” Jenkins grew up on a farm in Madison County, Virginia where he was active in numerous beef cattle and swine 4-H projects, as well as livestock judging competitions. Upon graduation from high school, he entered Virginia Tech, where he majored in animal science and was a member of the cadet corps. After receiving his bachelor’s of science from Virginia Tech and a commission as a Second Lieutenant in the United States Air Force, he entered the West Virginia University College of Agriculture master’s program in reproductive physiology. While at WVU, he served as the assistant livestock judging team coach as part of his teaching assistantship duties.

Upon receiving his master’s of science from WVU, General Jenkins immediately entered the Air Force and began pilot training. This began what would eventually become a thirty-year career as a fighter pilot, flight leader, squadron commander and wing commander, as well as numerous associated key staff officer duties.

As an Air Force officer, he served in a wide variety of jobs and locations throughout the world and served thirteen years of his thirty-year career overseas. His overseas assignments include two tours in Southeast Asia encompassing 198 combat missions, Squadron commander and NATO staff duty in Germany, Exchange Officer duty with the Royal Air Force in England, Air Force Commander in Iceland, and Wing Commander and Numbered Air Force Vice Commander in Korea.

Key stateside assignments included Deputy Commander for Operations of the Tactical Warfare Center, Eglin AFB Florida, Wing Commander Myrtle Beach AFB, South Carolina and three separate staff assignments at Air Force Headquarters totaling seven years in the Pentagon.

General Jenkins is a Command Pilot with over 3000 flying hours, primarily in fighter aircraft. He has flown the T-41, T-33, T-37, T-38, T-39, F-102, F-106, F-4, F-15, A-10 and F-16. General Jenkins retired from the Air Force after completing duty as the Pacific Air Forces Director of Logistics, Hickam AFB, Hawaii in 1997.

Following retirement from the Air Force, General Jenkins served as president of Exco INC, a small business engineering services and software integration and marketing company for two years. For the final nine years of his working career, General Jenkins served as a Senior Government Executive in the US Department of Energy as the Director of Aviation Management, where he provided direction and oversight of the Department’s aviation operations throughout the United States.

During this period, he was awarded the rank of Meritorious Executive, in the Senior Executive Service, by President George W. Bush. Upon his retirement from the Department of Energy in 2009, he was awarded The Distinguished Service Award by the Secretary of Energy. These awards capped off a long list of recognitions for General Jenkins, which includes Air Force Distinguished Service Medal, Air Force Legion of Merit with oak leaf cluster, Distinguished Flying Cross with oak leaf cluster, Defense Meritorious Service Medal, Air Force Meritorious Service Medal with oak leaf cluster, Air Medal with eleven oak leaf clusters, Air Force Commendation Medal with three oak leaf clusters, Republic of Vietnam Cross of Gallantry with Palm, Vietnam Service Medal with three service stars, Republic of Vietnam Campaign Medal and F-106 Top Gun—William Tell Air to Air Meet 1972.

Since fully retiring, General Jenkins and his wife, Nicki, spend time traveling and split their time at home between their primary residence in Vienna, Virginia and their farm in Madison County, Virginia. The two were married while he was a graduate student at WVU. This August, they will celebrate their forty seventh wedding anniversary. They have a son and daughter and two grandsons. During their Air Force career, Nicki served as the family’s “Mover in Chief,” with the family moving 23 times in 30 years. She gets all the credit for preparing for the moves and reestablishing the household at the new location. She also spent many hundreds of volunteer hours serving the Air Force and Air Force Families and was an essential part of the Jenkins Team.

Helen Holt

Helen F. Holt served in the West Virginia House of Delegates, was the first female Secretary of State of West Virginia and led the most important program in housing and long-term healthcare for the elderly in America in the 20th century.

Born in rural Illinois in 1913, Helen Froelich studied at Stephens College and the Marine Biological Laboratory. She received her bachelor's and master's degrees in zoology from Northwestern University and was inducted into Sigma Xi. She taught biology at National Park College in Forest Glen, Maryland and Greenbrier College for Women in Lewisburg, West Virginia. In 1941, she married the dynamic former United States Senator Rush D. Holt, the youngest person ever elected to the Senate. Mrs. Holt moved to Weston, West Virginia, where she raised three children, started a nursery school, served as a state officer of the General Federation of Women’s Clubs and was principal adviser to her husband, whom she succeeded in the state legislature after his early death.

Following her two years as the Secretary of State of West Virginia, Mrs. Holt served as Assistant Commissioner of Public Institutions and was responsible for the women's prison and homes for elderly persons. In 1960, President Eisenhower appointed her to create a program to lead the nation away from unsafe, inefficient nursing homes. Through Mrs. Holt’s mortgage insurance program at the Federal Housing Administration, and later the Department of Housing and Urban Development, she established nationally high standards for the care of the elderly and oversaw the construction of 1,000 modern long-term healthcare facilities with more than 100,000 beds, at no cost to the American taxpayer. Her work was so successful, she was reappointed by six subsequent presidents.

Mrs. Holt has served as a local, regional or national officer for a variety of organizations, including the American Association of University Women, Zeta Mu Epsilon, Tri-Delta, Business and Professional Women’s Clubs and Executive Women in Government. She was selected Daughter of the Year by the West Virginia State Society and received the International Year of the Woman Achievement Award. She also received West Virginia Woman of the Decade and was recognized as one of the Fifty Women who have Made a Difference by the International Association of Women.

The late Senator Robert Byrd said in tribute, “West Virginians are proud to claim Helen Holt. She is a very charming woman who wins friends and admirers wherever she goes.”

Rush Holt

Rush Holt is a resident of Hopewell Township, New Jersey, and has represented central New Jersey in Congress since 1999. Born in Weston, West Virginia, he inherited his interest in politics from his parents. His father was the youngest person ever elected to the U.S. Senate, at age 29. His mother served as Secretary of State of West Virginia and was the first woman to hold that position.

Rep. Holt earned his B.A. in physics from Carleton College in Minnesota and completed his M.A. and Ph.D. degrees, also in physics, at New York University. He has held positions as a teacher, Congressional Science Fellow and arms control expert at the U.S. Department of State, where he monitored the nuclear programs of countries such as Iraq, Iran, North Korea and the former Soviet Union. From 1989 until he launched his 1998 congressional campaign, Rep. Holt was assistant director of the Princeton Plasma Physics Laboratory, the largest research facility of Princeton University and the largest center for research in alternative energy in the state of New Jersey.

He has conducted extensive research on alternative energy and has his own patent for a solar energy device. Rep. Holt was also a five-time winner of the game show Jeopardy. In 2011, he beat “Watson,” IBM’s computer system, in a simulated round of Jeopardy at an event to promote innovation.

An active member of Congress and a strong voice for his constituents, Rep. Holt serves on the Committee on Education and the Workforce and the Committee on Natural Resources, where he serves as the Ranking Member on the Subcommittee on Energy and Mineral Resources, helping to develop a long-term strategy to decrease our nation's dependence on fossil fuels and protect our environment for future generations. From 2007 to 2010, Rep. Holt was the chairman of the Select Intelligence Oversight Panel. Created at the start of the 110th Congress in January 2007, the panel worked to strengthen oversight of the intelligence community by ensuring that policymakers receive accurate assessments, civil liberties are safeguarded and the intelligence community is protecting Americans.

Rep. Holt is married to Margaret Lancefield, a physician and medical director of the outpatient charity clinic at the University Medical Center of Princeton at Plainsboro. They have three grown children, Michael, Dejan and Rachel, and seven grandchildren, Niala, Noah, Boaz, Varun, Rohan, Cecile and Joshua.

Along with teaching introductory courses in chemistry, Dr. Robertson-Honecker is involved in the development and assessment of laboratory and classroom exercises that incorporate real-world problem solving to motivate students and support higher cognitive learning. She also expanded the teaching assistant training program to include pedagogy and chemical education. Her current work includes developing a chemistry course specifically for elementary education majors.

In addition to teaching introductory courses in chemistry and science education for pre-service science teachers, Dr. Robertson-Honecker is involved in several teaching grants on campus including the NSF-funded Robert Noyce Teacher Scholarship program. Over a decade or so, she has reached more than 2,000 K-12 students in West Virginia.

Dr. Robertson-Honecker earned her bachelor’s degree in secondary education with an emphasis in chemistry and physics from Fairmont State University. She earned her master’s and doctoral degrees in chemistry from WVU in 2008.

Major Harris

Major Harris, a Pittsburgh, Pennsylvania native, played for the West Virginia University football team as a quarterback from 1987-1989. Harris was a 1989 All-American and a contender for the Heisman trophy in 1988 and 1989. In 1988, Harris led the WVU football team to their first undefeated regular season and a battle for the national championship against Notre Dame in the Fiesta Bowl.

While at WVU, Harris became the first quarterback in Division I history to pass for more than 5,000 yards and rush for more than 2,000 yards in a career. He went on to play in the Canadian Football League and the Arena Football League and has been inducted into both the WVU Sports Hall of Fame and the College Football Home of Fame.

Please join us for a reception to congratulate our graduates immediately following the ceremony in the Douglas O. Blaney Lobby of the Creative Arts Center.

Graduates will have professional photos taken as they cross the stage. Ordering instructions are available at graduation.wvu.edu.

* Members of the audience may be seated during the processional.
** Members of the audience are requested to stand.
Smoking is prohibited in the Creative Arts Center.
